

# WHY CHOOSE NOTIFI

## Feature Rich Platform

Notifii is a fully capable and feature rich platform. We constantly add new features to the website based on customer feedback and requests. Because we're a web-based platform, you automatically get access to all the latest features without having to download any update patches.

---

## Easy to Use

The Notifii user interface was designed to be very intuitive and easy to use. The top navigation bar has descriptive links to everyday tasks (like logging a package in). We also have instructions, help pages, and FAQs that explain all aspects of Notifii.

## Industry Specific Solutions

We know that one size does not fit all. That's why we have different products that are specifically customized to a particular industry: Notifii MPC for mailbox stores, Notifii EDU for college mailrooms and residence halls, and Notifii APT for apartment communities. With industry specific solutions, you only get tools that are relevant to your business needs.

## Reliable and Secure

Notifii maintains a 99.9% uptime, meaning our website is available all the time. That service reliability is coupled with data security. Starting from the time you log into Notifii until you log out, all account pages are secure and accessed via SSL only. Our data is backed up every few hours.

## Great Customer Support

Notifii prides itself in providing high quality customer support via phone and email. Whether you need help setting up your account or troubleshooting an issue, we are always just a phone call or email away.

# INDUSTRY-SPECIFIC VERSIONS

## ➤ Notifii APT Overview

Notifii APT is a best-in-class, cloud-based, package tracking software created specifically for apartment communities and residential buildings

By design, Notifii APT is extremely user-friendly so anyone on staff can quickly and easily log packages. Residents are automatically notified to pick up their packages. This, in addition to a wide range of other features, from package search to package reports makes Notifii an irreplaceable solution for any serious residential community. Notifii APT streamlines your package operations so that your staff will spend less time dealing with packages and more time helping current and prospective residents.

Our plans start at just \$69 per month with a 30-day free trial. No credit card is required during the free trial. We'll even provide you with loan equipment to use during the trial period.

## ➤ Notifii EDU Overview

Notifii EDU is a best-in-class, web-based, package management and notification system created for residence halls, campus mailrooms, and campus post offices

Our industry-specific solution is perfect for colleges and universities, whether it's used exclusively for residence halls or as a campus-wide solution. By design, Notifii EDU is extremely user-friendly so any student on staff can quickly log in packages and set Notifii to automatically alert students to pick up their packages. This, in addition to a wide range of other features, from package search history to customized package tags will streamline your campus operations by reducing package processing times from minutes to seconds.

[Contact us](#) to schedule a free demo. We'll even provide you with free equipment to use during the trial period.

## ➤ Notifii INC Overview

Notifii INC is a best-in-class, web-based, package management and notification system created for packages delivered to corporate mailrooms

Built to create immediate efficiency, Notifii INC allows your mailroom staff to quickly log packages and automatically alert employees that their package is ready to be picked up or that it will be delivered to them shortly.

By design, Notifii INC is extremely user-friendly so any employee can quickly log in packages and Notifii will automatically send the proper notifications. This, in addition to a wide range of other features, from package search history to package reports will streamline your mailroom operations by reducing package processing times from minutes to seconds.

Our plans start at just \$69 per month with a 30-day free trial. No credit card is required during the free trial. We'll even provide you with free equipment to use during the trial period.

# POWERFUL NOTIFI FEATURES

## Package Management

Quickly and easily log packages, manage pending packages, search package history, view reports, and much more.

## Customer Notifications

Automatically sends customized email and text notifications for packages. Pickup reminders are automatic too.

## Proof of Pickup

Easily capture e-signatures via iPad/tablet or swipe an ID card as proof of pickup.

## Nothing to Install

As a cloud-based solution, there is no complicated software to install. Open a web browser or our iPad app and you're on your way.
